PENGADAAN BAHAN HEMODIALISA MESIN A PAKET 1  
TAHUN ANGGARAN 2025

RSUD Dr. R. SOEDJATI SOEMODIARDJO PURWODADI  
KABUPATEN GROBOGAN

DAFTAR KUANTITAS DAN SPESIFIKASI TEKNIS

Paket Pekerjaan : Pengadaan Bahan Hemodialisa Mesin A Paket 1  
Sub Kegiatan : Pelayanan dan Penunjang Pelayanan BLUD  
Keterangan : Bahan tersebut digunakan untuk Mesin Hemodialisa Merk Belco Formula 2000

| No | Nama Barang               | Spesifikasi                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Satuan | Jumlah |
